#	Priority	Problem type	Page	Exact text on the page	Why I flagged it	Suggested fix	Source to check	Done?
1	High	Pages disagree	http://localhost:8765/	Early voting: Saturday, February 28 through Sunday, March 8, 2099	The home page says early voting ends Sunday, March 8. The Early Voting page, the 2099 voter guide (PDF), and the flyer picture on this same home page all say it ends Saturday, March 7. State law's usual early voting window is the 10th through the 3rd day before an election (here, Feb. 28 to March 7), and the 2nd day before (Sunday, March 8) is allowed as an extra day. So either end date could be right, but the pages must agree.	Confirm the last day of early voting. If it is March 7, change this line to: "Early voting: Saturday, February 28 through Saturday, March 7, 2099, 9 a.m. to 5 p.m." If March 8 is right, update the Early Voting page, the 2099 voter guide PDF, and the flyer picture instead.	Early Voting page, 2099 voter guide, flyer; s. 101.657(1)(d), Fla. Stat.	
2	High	Hours don't match	http://localhost:8765/voters/register.html	Office hours for in-person registration: Monday through Friday, 8:00 a.m. to 4:30 p.m.	Doesn't match your approved office hours (Monday through Friday, 8:30 a.m. to 5:00 p.m.) or the Contact page. A voter could arrive at 8:00 a.m. or give up at 4:30 p.m.	Change to: "Office hours for in-person registration: Monday through Friday, 8:30 a.m. to 5:00 p.m."	Correct office details.docx	
3	High	Wrong deadline rule	http://localhost:8765/voters/vote-by-mail.html	Requests to have a ballot mailed to you must be received by 5 p.m. on the 10th day before the election.	Florida law sets the request deadline at 5 p.m. on the 12th day before the election, not the 10th (s. 101.62(3)(c), Fla. Stat.). The 10th day is the last day your office can mail ballots, which may be where the mix-up came from. The date this page gives, Thursday, February 26, 2099, is the 12th day, so the sentence and the date contradict each other.	Change "10th day" to "12th day": "Requests to have a ballot mailed to you must be received by 5 p.m. on the 12th day before the election."	s. 101.62(3)(c), Fla. Stat. (Online Sunshine)	
4	High	Web address doesn't work	http://localhost:8765/voters/vote-by-mail.html	Request a ballot online at samplecounty.example/vote, by phone at (555) 010-0100, or in person.	The address samplecounty.example/vote is not a page on your website (it returns "page not found"), and it is plain text, not a clickable link. This is where voters are told to request a ballot online.	Point voters to your working online request page and make it a link with clear words, for example: "Request a vote-by-mail ballot online." If /vote is supposed to forward to the request form, ask your web person to set up that forward.	Tested http://localhost:8765/vote (404 not found)	
5	High	Broken link	http://localhost:8765/voters/vote-by-mail.html	Learn more about absentee ballots	This link goes to /voters/absentee.html, which returns "404 page not found." Also, Florida now calls these "vote-by-mail ballots," not absentee ballots.	Remove the link, or point it to a page that exists. If you keep a link, use current wording, for example: "More about voting by mail."	Tested http://localhost:8765/voters/absentee.html (404 not found)	
6	High	Phone doesn't match	http://localhost:8765/news/2099-01-20-vote-by-mail-request-deadline.html	by calling 555-0100	This number is missing the area code and the "010" part. Your approved main number is (555) 010-0100. Dialed as written, it won't reach your office. This is a current deadline story.	Change to: "by calling (555) 010-0100".	Correct office details.docx	
7	High	Web address doesn't work	http://localhost:8765/news/2099-01-20-vote-by-mail-request-deadline.html	Voters can request a ballot online at samplecounty.example/vote	Same problem as the Vote by Mail page: samplecounty.example/vote returns "page not found", and it is plain text, not a link.	Use the same working address you choose for the Vote by Mail page, and make it a link.	Tested http://localhost:8765/vote (404 not found)	
8	High	Phone doesn't match	http://localhost:8765/documents/voter-guide-2099-special.pdf	Call the Sample County Supervisor of Elections at (555) 010-0199.	Wrong main number. Your approved main number is (555) 010-0100. This is the current voter guide, so voters will call this number.	Change the number to (555) 010-0100 and re-post the PDF under the same file name so existing links keep working.	Correct office details.docx	
9	Medium	Old date or past election	http://localhost:8765/	Early voting sites announced for the General Election (October 1, 2096)	Listed under "Latest news," but it is about the 2096 General Election. The headline doesn't say which election, so a voter could think it is about an upcoming one.	Remove it from the home page. A better third item is the January 20, 2099 story: "Vote-by-mail requests for the March 10 special election are due February 26."	The 2096 news story	
10	Medium	Vague link text	http://localhost:8765/	Want to help? Click here to become a poll worker.	The link words are just "Click here," which doesn't say where the link goes. Screen reader users often pull up a list of links and hear only "Click here."	Put the link on words that say where it goes: "Want to help? Become a poll worker." (link the words "Become a poll worker"). Also note the application is closed for this election (see the Poll Workers row).	W3C: Link Purpose (WCAG 2.4.4)	
11	Medium	Other: picture has no description	http://localhost:8765/	[Flyer picture /flyer.png, no alt text] Words in the picture: Vote March 10 / Library District referendum / Early voting Feb. 28 to March 7	The flyer is a picture of text with no alt text (the hidden description screen readers read aloud), so blind and low-vision voters miss it. Its early voting dates (Feb. 28 to March 7) also disagree with the text above it (see the early voting row).	Add alt text with the same words as the flyer: "Vote March 10. Library District referendum. Early voting Feb. 28 to March 7." Settle the early voting end date first.	W3C: Images of Text	
12	Medium	Vague link text	http://localhost:8765/voters/register.html	Click here for a paper application.	The link words are just "Click here," and it opens a PDF without saying so.	Change to: "Download a paper voter registration application (PDF)" and make that whole phrase the link.	W3C: Link Purpose (WCAG 2.4.4)	
13	Medium	Office name varies	http://localhost:8765/news/	Official announcements from the SC Elections Office.	Office name written a different way. Your approved name is "Sample County Supervisor of Elections." "SC" could also be read as South Carolina.	Change to: "Official announcements from the Sample County Supervisor of Elections."	Correct office details.docx	
14	Medium	Old date or past election	http://localhost:8765/news/2096-10-01-early-voting-sites.html	Early voting sites announced for the General Election	This story is about the 2096 General Election (the text says "2096 General Election"), but the headline and browser-tab title don't say 2096. The home page still links to it as latest news. It also has a wrong phone number and a different office name (see other rows).	Add the year to the headline: "Early voting sites announced for the 2096 General Election," or move the story to an older-news archive.	Story date: October 1, 2096	
15	Medium	Phone doesn't match	http://localhost:8765/news/2096-10-01-early-voting-sites.html	For more information, call (555) 010-0199.	Wrong number. Your approved main number is (555) 010-0100. The home page still sends people to this story.	Change to (555) 010-0100, or archive the story.	Correct office details.docx	
16	Medium	Old date or past election	http://localhost:8765/contact.html	2094 General Election Voter Guide (PDF)	The Contact page lists the 2094 guide right next to the current 2099 guide under "Voter guide." A voter could open the wrong one.	Remove the 2094 guide link from the Contact page. If you want to keep it on the site, put it on a past-elections page and label it "Past election."	2094 voter guide PDF	
17	Medium	Other: PDF is a placeholder	http://localhost:8765/forms/voter-registration-application.pdf	Florida Voter Registration Application (placeholder) / Placeholder for a demonstration. Use the official form from the Florida Division of Elections.	The Register page's "paper application" link opens a one-line placeholder, not the state form. It has no form number and no printed date.	Link to the official Florida Voter Registration Application (form DS-DE 39) on the Florida Division of Elections forms page. If you post your own copy, check the "eff." date printed at the top of the form against the state's current version before posting.	Florida Division of Elections forms page	

#	Priority	Problem type	Page	Exact text on the page	Why I flagged it	Suggested fix	Source to check	Done?
18	Low	Old date or past election	http://localhost:8765/	Last updated January 30, 2099	The page shows a news item dated February 2, 2099, so the "last updated" date is behind. An old date here makes the whole page look stale.	Update the date each time the page changes, or remove the line.	February 2, 2099 news item on the same page	
19	Low	Pages disagree	http://localhost:8765/poll-workers.html	Apply to be a poll worker	This page and the home page invite people to apply, but the application page says "The online application is closed for the March 10, 2099 special election."	Add a line here: "Applications for the March 10 special election are closed. Call (555) 010-0100 to be added to the list for 2100."	Poll worker application page	
20	Low	Wrong date	http://localhost:8765/results/	2094 General Election (November 6, 2094), certified	November 6, 2094 was a Saturday. The general election that year would have been Tuesday, November 2, 2094 (s. 100.031, Fla. Stat.). The 2094 voter guide uses the same date, so check both.	Check the date against the certified 2094 results and correct this link text.	s. 100.031, Fla. Stat. (Online Sunshine)	
21	Low	Old date or past election	http://localhost:8765/news/	Early voting sites announced for the General Election (October 1, 2096)	A 2096 story sits in the current news list. The date is shown, but the headline doesn't say 2096.	Move older stories to an "Older news" section, or add "2096" to the headline.	The 2096 news story	
22	Low	Vague link text	http://localhost:8765/news/	More news	This button links back to this same News page, so it goes nowhere new. There is no older-news page on the site.	Point it to an older-news archive page, or remove the button.	Link target: http://localhost:8765/news/	
23	Low	Office name varies	http://localhost:8765/news/2099-02-02-vote-by-mail-ballots-mailed.html	Completed ballots must reach the Supervisor of Elections Office by 7 p.m. on Election Day.	Uses the generic "Supervisor of Elections Office" instead of your approved name. Minor, but it's best to pick one style and use it everywhere.	Change to: "Completed ballots must reach the Sample County Supervisor of Elections office by 7 p.m. on Election Day." (or "our office").	Correct office details.docx	
24	Low	Office name varies	http://localhost:8765/news/2099-02-02-vote-by-mail-ballots-mailed.html	Vote-by-mail ballots are on the way | Sample County	This is the page title shown on the browser tab and in search results. It ends with "Sample County" (which reads like the county government) instead of your office name. Your other pages end with "| Sample County Supervisor of Elections."	Change the ending to "| Sample County Supervisor of Elections". This is probably one change in the news page template.	Correct office details.docx	
25	Low	Office name varies	http://localhost:8765/news/2099-01-20-vote-by-mail-request-deadline.html	in person at the Supervisor of Elections Office	Uses the generic "Supervisor of Elections Office" instead of your approved name.	Change to: "in person at the Sample County Supervisor of Elections office".	Correct office details.docx	
26	Low	Office name varies	http://localhost:8765/news/2099-01-20-vote-by-mail-request-deadline.html	Vote-by-mail request deadline | Sample County	This is the page title shown on the browser tab and in search results. It ends with "Sample County" (which reads like the county government) instead of your office name. Your other pages end with "| Sample County Supervisor of Elections."	Change the ending to "| Sample County Supervisor of Elections". This is probably one change in the news page template.	Correct office details.docx	
27	Low	Address doesn't match	http://localhost:8765/news/2099-01-20-vote-by-mail-request-deadline.html	123 Example St, Sampleton	Same address, but shortened ("St") and missing "Florida." Your approved address is 123 Example Street, Sampleton, Florida.	Change to: "123 Example Street, Sampleton, Florida".	Correct office details.docx	
28	Low	Office name varies	http://localhost:8765/news/2099-01-15-book-closing.html	Register by February 9 | Sample County	This is the page title shown on the browser tab and in search results. It ends with "Sample County" (which reads like the county government) instead of your office name. Your other pages end with "| Sample County Supervisor of Elections."	Change the ending to "| Sample County Supervisor of Elections". This is probably one change in the news page template.	Correct office details.docx	
29	Low	Office name varies	http://localhost:8765/news/2096-10-01-early-voting-sites.html	The Sample Co. Supervisor of Elections today announced three early voting sites	Office name shortened to "Sample Co." Your approved name is "Sample County Supervisor of Elections."	Change "Sample Co." to "Sample County" (or archive the story).	Correct office details.docx	
30	Low	Office name varies	http://localhost:8765/news/2096-10-01-early-voting-sites.html	Early voting sites announced | Sample County	This is the page title shown on the browser tab and in search results. It ends with "Sample County" (which reads like the county government) instead of your office name. Your other pages end with "| Sample County Supervisor of Elections."	Change the ending to "| Sample County Supervisor of Elections". This is probably one change in the news page template.	Correct office details.docx	
31	Low	Office name varies	http://localhost:8765/notices/canvassing-board.html	The Sample County Canvassing Board meets at the Supervisor of Elections Office, 123 Example Street, Sampleton, Training Room B.	Uses the generic "Supervisor of Elections Office" instead of your approved name.	Change to: "...meets at the Sample County Supervisor of Elections office, 123 Example Street, Sampleton, Florida, Training Room B."	Correct office details.docx	
32	Low	Email to confirm	http://localhost:8765/notices/public-records.html	records@samplecounty.example	This email address isn't on your approved details list (approved: elections@samplecounty.example). It may be a real records mailbox. Just confirm.	If records@samplecounty.example is real and someone checks it, add it to your approved details list. If not, change it to elections@samplecounty.example.	Correct office details.docx	
33	Low	Wrong date	http://localhost:8765/documents/voter-guide-2094-general.pdf	Election Day: Tuesday, November 6, 2094, 7 a.m. to 7 p.m.	November 6, 2094 was a Saturday, not a Tuesday. Florida general elections are held on the first Tuesday after the first Monday in November, which in 2094 was November 2 (s. 100.031, Fla. Stat.). This is also a past-election guide.	If you keep this file, check the date against the certified 2094 results and fix it. Otherwise remove it (see the Contact page row).	s. 100.031, Fla. Stat. (Online Sunshine)	
34	Low	Other: server setting	http://localhost:8765/documents/	Directory listing for /documents/	Typing a folder address (/documents/, /forms/, /voters/, /candidates/) shows a plain list of every file in that folder. Nothing private is in them today, but anything saved there later would be listed for anyone to see.	Ask whoever manages the web server to turn off folder (directory) listing.	Folder addresses tested

Website content check: Sample County Supervisor of Elections

Date checked	October 1, 2026
Website checked	http://localhost:8765/ (started from the sitemap, then followed every link)
Compared against	Correct office details.docx (approved): Sample County Supervisor of Elections; Supervisor Pat Placeholder; 123 Example Street, Sampleton, Florida; Monday through Friday, 8:30 a.m. to 5:00 p.m.; (555) 010-0100; elections@samplecounty.example; samplecounty.example
How I judged "old"	The site is built around the Tuesday, March 10, 2099 special election, and its newest dated item is February 2, 2099. I flagged anything about an earlier election that is presented as current, and dates that fall behind the page's own content. Past-results pages are supposed to be old, so I didn't flag them.
What I read	19 web pages and 3 PDFs, word for word, plus the flyer picture on the home page.
What I skipped on purpose	Notices of potential ineligibility (/notices/potential-ineligibility.html): it lists individual voters, so I did not open or read it. I only checked that its link answers. Past-results pages (2098 and 2094 General): link tested only. I found no monthly reports on the site.
Total problems	34
High priority	8
Medium priority	9
Low priority	17
Marked Done so far	0
Rows in the Links tested tab	35
Broken links	1
Web addresses in page text that don't work	1
Links that redirect	0
Priority key	High = wrong or missing information a voter could act on (dates, hours, phone numbers, broken links or addresses). Medium = old or confusing content, office-name variants, vague links, a picture with no description. Low = smaller consistency cleanups and things to confirm.
How to use the Problems tab	Sort or filter by Priority or Page. When you fix a row, pick "Done" in the Done? column (other choices: Won't fix, Checked - OK). Done rows turn green, and the counts above update.
Sources used for suggested fixes	s. 101.62, s. 101.657, and s. 100.031, Fla. Stat. on Online Sunshine (leg.state.fl.us); Florida Division of Elections forms page (dos.fl.gov); W3C accessibility guidance on link text and images of text (w3.org). Links are in the Problems tab, "Source to check" column.
Please note	This check was done with Claude Code (an AI tool): an automated crawl plus a read-through of every page. Spot-check a few rows against the live pages before you make changes. Links to localhost open the local copy of the site that was checked.
